The Young Entrepreneurs Academy (YEA!) ***is a groundbreaking, 30-week program that transforms middle and high school students into real life entrepreneurs and business owners.*** Throughout the class, students develop business ideas, write business plans, conduct market research, pitch their plans to a panel of investors, and then launch and run their own legal, fully formed companies and social movements.

Complete with guest speakers from the local business community and behind-the-scenes trips to local companies, the projects-based YEA! approach empowers students to take charge of their futures in a profound way.

The Young Entrepreneurs Academy is not only a wonderful tool to teach students about business, but also a great way to build confident leaders with values.
