

Becoming a Leader Worth Following

Toolkit Sessions

Toolkit Sessions make it easy to intentionally develop yourself and/or lead your team without losing focus on delivering what you've been called to do every day.

About

At The Jordan Group, we use GiANT simple visual tools to teach leadership to 1000s of leaders all over the globe. We've found that these simple, memorable, & teachable tools provide a framework that help individuals become leaders you want to follow, not simply have to follow.

With Toolkit Sessions, you can build these tools into your own leadership and your team in an interactive & practical way.

The typical outcomes you will experience:

- Understand foundational leadership principles and challenges
- Establish a common leadership language and set of tools to address those challenges
- A simple, scalable process for leader development and collaboration at any level
- A lightweight way to invest in and grow your people (your greatest asset)
- A powerful way to elevate the health and performance of your team

12pm - 1pm at The Leesburg Junction, 215 Depot Ct SE, Leesburg, VA 20176 on the following dates

5/25/23 - What Type of Leader Are You?
